

# SPEED COMBI GRINDER

PSS SG / SGS / SCG

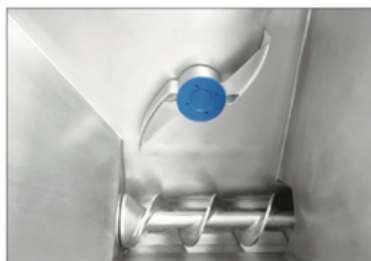

## OPTIONS:

- PSS BES bone elimination system
- Mirror-effect polished worm
- Mirror-effect polished hopper
- Inspection footsteps
- Inspection platform
- Extension of hopper walls
- Safety rail around the hopper
- Remote access via internet

## PSS SPEED COMBI GRINDERS

PSS Speed Grinders are versatile universal machines designed for operations in the food industry. Grinders are suitable for fast grinding of any kind of fresh meat, frozen meat as well as whole frozen meat blocks with temperature down to  $-25^{\circ}\text{C}$  (SCG). PSS speed grinders allow coarse and also very fine grinding and ensure the superior quality of final products. The machines are a guarantee of efficient and practical use and ensure high performance and reliable operation. The final product with the desired structure is produced according to the chosen grinding set. The quality PSS grinding system ensures smooth grinding, minimal wear and production of a premium quality product.
