Omet TCP Mixer/ Mincer

The Omet TCSA Mixer/ Mincer is a well-priced product that is easily comparable to many brands in the Australian market.

Pre-mixing bowl of 500 liters provided with a mixing worm whose rotation can be inverted for an effective premixing effect.

Main motor power up to 30 kW.

Speed of feeding worm adjustable to get the correct quantity of meat to the mincing worm in order to minimize the stress of the product.

Feeding worm easily removable for fast cleaning.

- Grinders specifically designed for the use in medium and big industries
- The strong construction in stainless steel and high reliable mechanics make them adapt to an intensive use in the processing of meat, fat, cheese, vegetables, etc.
- Very up-to date technical and constructive solutions supported by the use of high quality cutting tools guarantee a clean cut of the product
- Gear-box protected from water infiltrations thanks to drains of liquids resulting from the washing
- Smooth surfaces and lack of corners for a fast and effective cleaning
- Integrated hydraulic loader
- Possibility to install an efficient **nerves and gristles separating device**
- Accident prevention protections assured by sensors controlled by a high safety electronic central unit
- Machine conforming to the EC directives

Technical data	
Tank capacity	500ltr
Main Motor	30 kw
Max production	5000 kg/hr
Feeding worm motor	1.5 kw
Loader motor	0.75 kw
Mixing arm motor	1.5 kw
Weight	1200kg
